

EQIP Activity Sheet: *EAS 595-2*

Pest Management – Herbaceous Species Control/Suppression

Minimum Criteria to Qualify for the Pest Management Herbaceous Control/Suppression

Purpose: To control or suppress herbaceous vegetation.

Note: This payment schedule for pest management – herbaceous control/suppression allows for application (s) as needed for control/suppression of targeted herbaceous vegetation.

General Criteria:

- This pest management practice **applies only** to herbaceous control/suppression of targeted species. See MP 581 - "Weed and Brush Control Guide for Forages, Pastures and Noncropland" published by the University of Missouri Extension as a guide to controlling herbaceous species.
- Pesticides need to be evaluated through WIN-PST and all pesticides with extra high, high or intermediate environmental hazard ratings will need appropriate mitigation practices defined in the conservation plan. All mitigating practices need to be applied to the land before the pest management payment is made.
- **Documentation Required:**
- Total acres treated, target pest, treatment (s) used, application(s) rates and dates.
- Post inventory dates and evaluation analysis after chemical application(s).

For additional information contact your local USDA Service Center.

The United States Department of Agriculture (USDA) prohibits discrimination in its programs on the basis of race, color, national origin, sex, religion, age, disability, political beliefs and marital or familial status. (Not all prohibited basis apply to all programs). Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact the USDA TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint, write the Secretary of Agriculture, USDA, Washington, DC 20250, or call 1-800-245-6340 or (202) 720-1127 (TDD). USDA is an equal opportunity employer.
